It's no secret that the key to great accuracy is good training. After that, it often comes down to a match-grade barrel. Built from high-quality stainless steel, precision polished, and treated with premium coatings, these barrels rival custom work and deliver the best in accuracy and performance, round after round.

### STANDARD FEATURES

- » Match-grade precision drop-in barrel
- » 1:10 Twist / 6-groove rifling
- » CNC-machined from 416R stainless steel billet results in superior corrosion resistance and durability
- » Low-temperature vacuum PVD coating creates a durable barrier against wear and tear even in the harshest environments
- » BORSLICK™ inner bore treatment resists heat and carbon buildup
- » Target crowned muzzle
- » Individually hand-inspected for accuracy
- » No gunsmith required
- » Limited lifetime warranty
- » All threaded barrels include a color-matching Rival Arms™ thread protector

\* All threaded barrels include a color-matching Rival Arms thread protector.
