

NEW SPLIT-GRIP™ FOLDING SPLIT-LIMB BOW STAND

You spend time and money configuring your bow to be exactly how you like it. Why would you then set it down in the dirt? SPLIT-GRIP™ folding bow stand holds your bow on the range or in the field, providing easy access while keeping your gear out of the mud. When not in use, the stand folds to fit into a pack, bow case, or even your back pocket.

RUBBERIZED GRIP
Provides a strong hold and won't scratch limbs.

NEW AG311A

- Ultra-tough composite construction.
- Compact folding design.
- Quick and easy use.
- Fits most split-limb bow models (.80 in. minimum opening).
- Soft rubber-lined jaws accommodate thick or thin limbs.
- Patent pending.
