NEW AG8527BLC

**NEW CROSSPEAK™  
ILLUMINATED  
CROSSBOW SCOPE**

If you own a crossbow, it is likely because you value power and speed that is ready to go. The CROSSPEAK™ illuminated crossbow scope matches that speed with accuracy and a crystal clear image. Don't settle for a kit scope that leaves accuracy and clarity on the table.

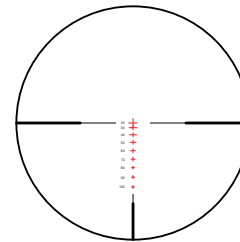

- Glass-etched reticle can be illuminated (red) for increased contrast or used without illumination (black).
- APEX Ballistic Reticle provides holds from 20-100 yards.
- Increased magnification compared to many other speed-calibrated scopes (2-7x vs 1-4x).
- Speed calibration system scales the target image to the reticle and can be used from 260-500 fps.
- Illuminated reticle has 10 brightness settings with off positions between each setting.
- 1/2-MOA per click windage and elevation adjustments.
- Nitrogen gas-filled.
- Fully coated lenses provide maximum brightness, clarity, and contrast.
- Machined 30mm rings included.
- Neoprene scope cover included.
- Limited lifetime warranty.
